

J.M. BOSTWICK & SONS.

EVERY NOW AND THEN PEOPLE think of how they might have been benefitted if they had done differently; of how many steps would have been saved if they had taken the shortest route; of how much they would have profited if they had paid a few cents more and got a good article, instead of taking the cheaper; for example: suppose you pay 20c for a pair of gloves, said to be just as good as others ask 25 cents for; but you are deceived, you soon have to buy another pair, thus expending 40 cents. Your neighbor comes to us, pays us 25 cents, gets a good pair, and actually gets more wear and more comfort out of the investment, and thus saves 15 cents. Who is ahead? Does it pay to buy shoddy? Draw your own conclusion.

EVERY CITY HAS ITS REPRESENTATIVE dry goods store, and Janesville is no exception. Why are we the recognized headquarters? Look at the size of our store, at the size of our stock at the volume of the business we do. How did we acquire such a foothold? By doing business on strictly business principles, by misrepresenting no goods, by being accommodating, by studying the interests of the people and keeping what they want. Acquaint yourself with our way of conducting a dry goods store by trading with us and see how you come out.

SPECIAL--100 LINEN DUSTERS worth \$2.00, to be closed out at 50c each; if you do not want them for dusters, the linen in them can be made into children's dresses, and used for many other purposes.

DIPHTHERIA

What Physician Can Cure It? NONE.

The late Dr. T. H. Tanner, F. L. S., member of the Royal College of Physicians, London, Eng., said in his celebrated book ("Tanner's Index of Diseases")—"There is no specific known."

No drugs taken internally will neutralize the virulent poison in the blood in time to check its deadly effect.

Sunbeam Liniment

Included in the proportion of a quarter of a bottle to a pint of boiling water, will, if taken in time check development of the most dangerous case, and need not interfere with the physician's treatment.

Prized your little ones now and have a bottle immediately. If you wait, it may be too late. The treatment should be begun upon the slightest symptom of sore throat, and the remedy should therefore be ready to hand.

Druggists have it. Price \$1.00 Per Bottle. Or sent free by express to any address on receipt of price.

If you buy a bottle at a druggist, cut this out and send immediately to us for free directions for use. Directions for use of SUNBEAM LINIMENT to cure DIPHTHERIA are positively not printed on the bottle, as this is a new and wonderful property of an old and favorite remedy has only lately been discovered by a well known physician in his own private practice.

THE SUNBEAM FAMILY REMEDY CO., 125 20th Street, Chicago, Ill.

Children's Hose,
Shirt Waists,
Children's Suits,
Children's Hats.

We want to say a few words in regard to our Children's and Boys' department. It is not generally known that we keep in stock LONG HOSE FOR BOYS. These hose, running in sizes from 7 to 9½, and prices from 10 cents to 50 cents, are remarkably good for the price.

We think you would be satisfied also, should you see them, that our SHIRT WAISTS, both blouse and button, are the best that can be found in the city at the prices we ask.

In CHILDREN'S SUITS, ages 4 to 14 years, both in two and three pieces, we think we lead. It is a gratification to have our customers come in and say, as they often do, that they have seen nothing so good at any other place for the money. This of course is to be expected, as we manufacture them and save you one profit.

Our stock of HATS is large and low in price, and we are also well supplied with SAILOR COLLARS, white and fancy, and we think that if you will be convinced that we are at all times up to the mark on these goods.

Too Modest

To say much for ourselves, we have kept quiet the past year and "saved wood", but with springing grass and leafing trees we begin to feel as if it was the proper caper to blow our own horn a little.

You take a drive or walk thro' Glen-Etta and Riverview, and so along south thro' Carrington, Wheeler & Whitehead additions and you will wonder why we are so modest. We are now putting down 2,000 feet more water main, thus continuing our "Riverview" system thro' both of the other additions so that every lot on the three additions will have artesian water. Today there are in course of erection seven more new homes, making in all TWENTY-FIVE homes within sixteen months. Our enterprises are no boom projects, they are just straight, plain business efforts, resulting in home building by home seekers.

If you keep your eyes open and watch Spring Brook and Riverside, you will also see there fresh surprises, hose additions are coming to the front.

If you seek a home, if you seek an investment, if you want ANYTHING in real estate, you are not in the right place till you see us. Yours very truly,

GEO. L. & SARAH H. CARRINGTON.

You Want This.

A beautiful new house, six rooms, vestibule, pantry, china closet and three closets; cellar under whole house; every modern improvement; all for \$1,500. Two hundred dollars' cash payment, the balance easy monthly payments, and long time. This house is ready to deliver to-day. Call and see it.

Yours very truly,

GEO. L. & SARAH H. CARRINGTON.

RE-ENTERS THE RING

Sullivan Will Abandon Acting and Fight Slavin.

HE TELEGRAPHS FOR A MATCH.

The Australian Seems More Than Willing and Says He is Ready to Try Conclusions at Any Time—Will Give Up His Trip Back to England.

NEW YORK, June 19.—John L. Sullivan has telegraphed from San Jose his willingness to meet Slavin for \$10,000 a side and the highest purse any club will offer, the fight to take place on the return of Sullivan from Australia, three months hence.

This morning, Slavin said if Sullivan would forego his trip, he (Slavin) would defer his return to England, and prepare to meet Sullivan at once.

GROWING UGLY.

Murderous Apaches on the Warpath in New Mexico.

SANTA FE, N. M., June 19.—From the Black range, in southwestern New Mexico, along the Arizona border, continue to come reports of roving bands of Indians. Numerous signs of their presence have been seen quite recently. A militia company composed of miners has been organized at Chloride for protection. The Black range has always been a favorite haunt of the murderous Apaches, who are familiar with every portion of that country. Troops are out in various directions searching for the redskins.

It is believed that no less than a dozen men have been murdered during the past five months by these renegades from the San Carlos reservation. A. T. Two men are reported to have been killed in the vicinity of Carlisle during the past week. The Blackhawk militiamen, who are keeping a sharp lookout, saw signal fires at night, which are supposed to have been on the Chuchillo mountains, near Edwards' camp.

A Mexican just in from Monticello reports that twenty-five Indians have been seen on the San Mateo mountains. That more lives will be sacrificed is certain, and the already long bloody record will be lengthened before the summer is over. The season is favorable for a long campaign, as grass and water abound, and the Indians have had a long rest.

FLOOD IN THE TYROL.

An Enormous Artificial Lake Breaks Through Its Dams.

VIENNA, June 19.—An artificial lake 1,000 feet long, 350 feet wide, and 80 feet deep, formed by the Martell glacier behind the Zaufallerner mountain in Tyrol, burst its confines Friday and flooded the valley. The huge volume of escaping water caused a shock like an earthquake to the surrounding country, and made a deafening noise. As the inhabitants had expected for some time past that this accident would happen and had accordingly made preparations looking to the safety of their lives and property, it is hoped that no fatalities have been caused by the flood in the terrible rush, but reports from many villages which have been inundated are anxiously awaited. It is known that much property has been destroyed. The bursting of the lake was due to the softening of the glacier, which is 1,200 feet in thickness.

HE FOOLED STATESMEN.

Sentence of a Young Man Who Worked a Novel Swindle on Senators and Congressmen.

BALTIMORE, Md., June 19.—William K. Duval, the young man who distinguished himself quite recently by naming fictitious broods of young Duvals after various senators and representatives in congress, of which he took pains to inform them, and thereby securing many christening and Christmas presents, pleaded guilty in the criminal court to three cases of false pretenses and was sentenced to three years in the penitentiary in each case, concurrent.

Made Quick Time.

EAST ST. LOUIS, Ill., June 19.—Sunday afternoon Milton C. Brown, a prominent business man of this city, and his wife were out carriage riding. The couple quarreled and Wednesday afternoon Mrs. Brown applied for a divorce on the grounds of extreme and repeated cruelty. Mr. Brown waived all rights of defense and in five minutes the divorce was granted. Mrs. Brown immediately left for Pittsburgh, Pa., where she will visit with friends.

Entitled to the Office.

INDIANAPOLIS, Ind., June 19.—The supreme court of Indiana has decided that Nelson J. Hyde, the democratic defendant, was entitled to the office of state oil inspector, and that John Worrell, republican contestant for the office of state statistician, was entitled to salary, and the auditor of state was ordered to pay it.

Inherited a Fortune in Italy.

GALESBURG, Ill., June 19.—The news that Lewis Mammel, a cook in one of the hotels here, has been left a fortune in Italy is confirmed by a letter from his sister advising him to return to Italy at once and claim the property. The entire estate is estimated as worth over \$1,000,000, and his share will be nearly \$400,000.

Beat His Son to Death.

MADISON, Ind., June 19.—After carefully sifting all evidence, and as a result of post-mortem examination Coroner Murett returned a verdict that the 7-year-old son of Stokes Brown died from the effect of the beating received at his inhuman father's hands. Brown is in jail and will be tried for murder.

Balance in Uncle Sam's Treasury.

WASHINGTON, June 19.—The treasurer's statement shows that the cash balance is \$44,415,000, of which \$22,029,000 is on deposit with national banks and \$20,386,000 is in fractional silver, deducting which items the net cash balance is but \$1,235,000, which is the lowest figure yet reached.

Jury Briber Sentenced.

NEW ORLEANS, June 19.—Bernard Gladi, convicted some days ago of having attempted to bribe Tales Juror Henry B. Atwood in the Hennessy case, was on Thursday sentenced by Judge Marr to one year's hard labor in the penitentiary.

Wedded an Indian.

NEW YORK, June 19.—Miss Elaine Goodale, the poetess, was married here Thursday to Dr. Charles Eastman.

SAILED FOR ALASKA.

Departure of Uncle Sam's Men of War Alert and Mohican.

SAN FRANCISCO, June 19.—The Alert and Mohican sailed Thursday for the Alaska sealing ground. They went under special orders from Washington to carry out instructions based on the recent international agreement. The revenue steamers Bear and Rush are already north, and the Thetis and Corwin sailed Wednesday. The Marion is to go up shortly and take the latest orders.

It only became known Thursday just what the orders were. No vessels second this season are to be sent away, as was the Black Diamond last summer. Every vessel discovered is to be warned once, and memorandum of date and place will be entered on the log of the revenue steamers. If after having been warned the vessel is caught sealing it will be seized and escorted to Unalaska. There the skins will be removed and stored and the officers and crew be taken to the naval transport steamer, which is to be sent up either from this port or the Sound for this special purpose. A force of marines will guard all the poachers and there will be few, if any, cases put into the courts.

IN A RUNAWAY BALLOON.

The Fall of an Aeronaut Leaves Two Non-Professionals to Their Fate.

PARIS, June 19.—At Lavillotte Wednesday a balloon containing a professional aeronaut and two other persons made an ascension which was watched by a great crowd of spectators. When the balloon had reached a height of not more than 60 feet the aeronaut, who had been busily engaged about the outside of the car, was observed to lose his balance and fall to the earth. There is said to be no hope of saving his life, his injuries being of a most serious nature. The balloon, and the two remaining occupants, neither of whom knew anything about handling it, ascended higher and higher and finally disappeared among the clouds. The prefects of outlying towns were promptly telegraphed to keep a sharp lookout for the runaway balloon, but up to this time nothing has been heard.

MICHIGAN.

A Compromise Measure for Taxing Railways Agreed Upon.

LANSING, Mich., June 19.—The deadlock between the two houses over the Richardson specific tax bill was disposed of Thursday by a conference committee agreement. The compromise will require the railroads to pay an increased tax of \$178,000 yearly, a cut down of \$80,000 from the original form of the bill. All roads earning under \$2,000 per mile will pay a tax of 2 per cent.; under \$4,000, 2½ per cent.; under \$6,000, 3½ per cent., and when over \$6,000, 4 per cent. The world's fair bill, appropriating \$125,000, was favorably reported to the senate Thursday.

Indians to Celebrate the Fourth.

ASHLAND, Wis., June 19.—The Bad River Chippewas of Lake Superior belonging to the Bad River reservation will celebrate the Fourth of July at Odanah, their village. Indians from every reservation in the Lapointe agency for a distance of several hundred miles around will be in attendance. The day following the Fourth they will hold a general council, in which there will be upwards of twenty chiefs, representing their different reservations.

To Be Court-Martialed.

WASHINGTON, June 19.—In accordance with the findings of the court of inquiry in the case of lynching of Hunt by United States troops at Fort Walls, Wash., Secretary Proctor has ordered a court-martial to try Col. Charles E. Compton, Fourth cavalry, for negligence in failing to take proper steps to prevent the lynching. The court will meet July 1 next.

Robbed of Valuable Jewelry.

NEW YORK, June 19.—Jewelry worth \$14,500 was stolen from the cabin of Mr. and Mrs. Louis Schlessinger on the steamer La Gascogne on the night of June 5. The jewels were wedding gifts and were in a yellow leather bag in their stateroom. The theft was committed after Mrs. Schlessinger had retired and while her husband was enjoying a smoke on deck.

Voted by Gov. Fifer.

SPRINGFIELD, Ill., June 19.—Gov. Fifer has vetoed the bill passed at the recent session of the legislature which would have allowed mining and construction companies to take and hold stock in railroads to which they furnished supplies.

Rumored Plan to Annex Guatemala.

CITY OF MEXICO, via Galveston, June 19.—A special dispatch from Guatemala says a plan has been discovered to annex Guatemala to the United States. Some of the most prominent officials of that country and the principal coffee planters are interested.

Noted Mail Robber Caught.

WASHINGTON, June 19.—Chief Inspector Rathbone has been notified that James McDermott, who robbed the mails near Buffalo, Wyo., in 1889, and secured a large amount of booty, has just been apprehended.

Electric Railway Plant Burned.

ASBURY PARK, June 19.—The power station of the Seashore electric street railway, together with fifteen costly dynamos, eight engines, boilers, etc., was destroyed by fire at 3 o'clock a. m. Loss \$50,000.

Belden Must Die.

WASHINGTON, June 19.—The president has denied the application for a pardon in the case of Edward Belden, convicted in Kansas of murder, and sentenced to be hanged on the 26th inst.

Reached Cape May.

CAPE MAY, N. J., June 19.—The presidential party arrived at Cape May Point Thursday afternoon. The president will remain until Tuesday.

It is said that the wages of the 22,000 mill operatives of Fall River, Mass., are to be reduced 10 per cent.

INDIANAPOLIS, Ind., June 19.—Though ex-Senator McDonald is gradually sinking he is still cheerful and even hopeful. He reads the papers daily and sees many friends. Mrs. McDonald has advised his friends of his condition, and several of them have arrived here.

Fatal Boiler Explosion at Akron, O.

AKRON, O., June 19.—By the explosion of a boiler at the walls of the Akron waterworks station Henry Golden was instantly killed, John Harvey fatally burned and six other men seriously injured. The boiler was struck by lightning.

JIM HALL IN BELOIT

John Kline is Getting Him in Fighting Shape.

WILL GIVE FITZSIMMONS A RUB.

The Veteran Line City Trainer Begins Work on the Lank Australian Fitting Him for His Minneapolis' Fight—Is Much Too Heavy at Present.

BELOIT, June 19.—The appearance of "Parson" Davies, Jim Hall, Billy Woods and all the rest of the all-star sparring combination, has aroused a great deal of interest in the big fight which is to occur at Minneapolis, July 22, next. Hall at once put himself under the care of John Kline, who, by the way, has never yet turned out a man who hasn't either won or at least got a draw. The quarters have been "slicked up" for Hall, and immediately upon his arrival the unassuming young Australian went at his work.

Hall's course of training differs but little from that adopted by all other fighters—running, punching the bag, bathing, rubbing down, etc. The tall Australian also has a lively go with "Billy" Woods, the big Coloradan, who weighs 187 pounds, and battles him at a tremendous rate. Hall has to do some pretty hard work to get down to the 165 pounds which he must balance on the night he steps into the squared circle at Minneapolis. But the suppurated flesh is fast coming off under the dexterous training of Kline and Kemmick, his assistant, and there is no doubt that Hall will be "fit as a whistle" the night of July 22.

CHICAGO'S TRIBUTE TO GRANT.

The Cast of the Statue Has Been Completed and the Great Monument Will Be Dedicated at Lincoln Park About September 1.

CHICAGO, Mass., June 19.—The colossal statue of Gen. Grant designed by Louis Ribisso, of Cincinnati, has been cast in bronze and will be shipped this week to Chicago to stand upon the magnificent pedestal in Lincoln park. The statue is the largest ever cast in this country, exceeding as it does in size the statues of Washington both in New York and Boston, but being somewhat smaller than the Washington statue in Richmond, Va., which was modeled by Thomas Crawford and cast in Munich. It measures 8½ feet in height from the shoe of the steed to crown of the hat, with all parts in proportion, weighs eight tons and cost \$25,000. Mr. Mosman, who is a sculptor as well as a foundryman, has met with great success in his work, and the massive parts of the statue present in the finished work in which they are joined as a whole a thorough perfectness in which there is not a single flaw or blemish.

About September 1 this statue will be mounted on its massive pedestal in Lincoln park, Chicago, the whole to cost \$75,000, which has been subscribed for the purpose by the citizens of Chicago, and will be by them unveiled with befitting ceremonies. The pedestal is built of solid granite and is divided into three heights above the lake shore driveway. Above this is a road parallel to the lake shore, and over this is a superstructure composed of solid granite arches, a stone roof and balustrade. From this roof rises the pedestal. From the lake shore driveway to the upper doorway of the arch is 16 feet; from the upper roadway to the top of the stone roof is 16 feet, and the pedestal proper is 12 feet long, 5 feet 6 inches wide and 10 feet 6 inches above the roof. The base of the statue, therefore, will be 42 feet 6 inches above the lake shore driveway, and, including the statue, the whole memorial will be 60 feet 8 inches in height—a massive and magnificent monument, worthy of the great chieftain to whose memory it will be dedicated.

VICTORY FOR LIBERALS.

Torres Meet Crushing Defeat in the House of Commons.

LONDON, June 19.—In the debate in the house of commons Thursday on the factory bill the amendment of Mr. Sydney Buxton (liberal) to prohibit children's labor was adopted by a vote of 202 to 186. The government was thus defeated. The majority included a few conservative members. Mr. Buxton's amendment will affect 150,000 to 200,000 children in the kingdom now employed in manufacturing districts as half-timers. It is a humanitarian reform and was adopted by the bulk of the operatives who benefit by the labor of their offspring. The liberals argued that the abolishing of child labor would provide more work for adults.

BASEBALL.

Result of the Games Played in Various Cities on Thursday.

National league games on Thursday resulted as follows: At Cleveland—Cleveland, 12; Cincinnati, 8. At Pittsburgh—Pittsburgh, 4; Cincinnati, 4. At St. Paul—St. Paul, 6; At Omaha—Omaha, 7; Kansas City, 6. At Denver—Lincoln, 6; Denver, 3.

American association: At St. Louis—St. Louis, 6; Cincinnati, 3. At Louisville—Louisville, 3; Louisville, 2.

Minor league: At Joliet—Joliet, 2; Quincy, 1.

Northwestern league: At Dayton—Dayton, 4; Peoria, 2. At Grand Rapids—Evansville, 3; Grand Rapids, 1.

Short Shift for a Horse Thief.

CHEYENNE, Wyo., June 19.—Friday night, June 5, James Waggener, of Crook county, was taken from his home by three supposed United States officers. Wednesday Mrs. Waggener found the body of her husband hanging from a tree about 10 miles from the ranch. Waggener had amassed \$15,000 in cash and a large batch of horses. He had raided cautiously in his own neighborhood, but boldly handled stolen stock consigned to him from the Dakotas, Montana and Utah.

Austrians Not Ill-Used in America.

VIENNA, June 19.—In the reichsrath Count von Tassfe, the Austrian premier, declared that the ministry of foreign affairs had made a careful inquiry into the alleged maltreatment of Austrian subjects in Virginia, United States, and that the investigations showed that no foreign workmen had been subjected to ill-treatment.

TO-DAY'S ANNIVERSARIES

1526—James VI. of Scotland and I. of England born at Edinburgh Castle; died 1625.
 1623—Blaise Pascal, French writer on reform in religion, born; died 1662.
 1798—Major General Nathaniel Greene died at Mulberry Grove, Ga.
 1794—Richard Henry Lee, the first to move in congress for a Declaration of Independence, died.
 1808—Earthquake shook the whole valley of Mexico, destroying \$6,000,000 worth of property and 60 lives.
 1804—United States man-of-war Kearsarge sank the privateer Alabama near Cherbourg, France.
 1807—Maximilian, emperor of Mexico, shot at Queretaro by order of the Juarez government.
 1880—John A. Sutter, noted in connection with the discovery of gold in California, died.

NEWS FOR CLINTON RABBIT.

That Cloud county alliance out in Kansas may be "a cloud no bigger than a man's head," but it may deluge the people's party if it grows. The resolution it adopted goes to the root of matters political in very straightforward fashion:

"Whereas, The south was not represented in the Cincinnati convention; and

"Whereas, We believe the third party will disrupt the republican party to the benefit of the democratic party; therefore be it

"Resolved, That we abandon the third party to return to our past affiliation."

There are twenty-four other sub-alliances in Kansas that have adopted a similar course. All of which shows that the Kansas farmer can see through a millstone with a hole in it as well as anybody.

GERMAN CATHOLICS PROTEST.

As "recognition" was avowedly the policy followed by Governor Peck in naming the state board of control, it is no wonder that German Catholics protest. Every one else had a slice—even the plain American born citizen. But the German Catholics were left out. Their organ, The Columbia, says:

"Boss Wall, the mis-acting governor, last Tuesday appointed the members of the new state board of control. The German democrats have once more been left in the cold. The 'Boss' seems to consider them as 'safe voting cattle'; he treats them as such, at least. His motto is: 'No German Catholic need apply.'"

"This slight and affront fills the peck; 'Boss' may take care that it does not run over."

HE HAS THEIR PRAYERS.

Baraboo Presbyterians are much concerned because they cannot begin to build at once on the church site given them by W. A. Warren. The Baraboo Republic denies, however, that the Presbyterian society have taken out a term policy on the life of Mr. Warren, to indemnify the society for the loss it would sustain by reason of the Dodge Legacy Law, should he join the angelic choir before the expiration of three months. The society will redouble prayers for Mr. Warren's safety, and vote the Republican ticket with greater satisfaction hereafter.

The objection is raised to erecting statues to people during their lives that something may come out on them, or they may get into scrapes and lose the public favor, so that people might choose to spurt tobacco juice, or even throw stones at the statue. The same objection may apply to using living men for examples in Sunday school books. There was one in Chicago some little time since, who was thought a combination of all the virtues. Now even the devout people of Evanston revile him.

Had M. De Lesseps stopped with the Suez canal or been able to complete the Panama one, he would have been in the line of those who draw popular acclamations and have statues erected for their memory. As it is, he is fortunate to escape mobbing, and is not likely to escape suits from those who were induced to confide their names to his Panama scheme. There is nothing like keeping out of the reach of failure and disaster.

Democratic papers are expected to wrestle with Mr. Blaine most of the time, of course, but they ought to be consistent. A few years ago they were bitterly denouncing the secretary for being too energetic in Chilean war affairs. Now they are clamoring for premature intervention on the side of insurgents and disposed to censure him for not taking part in a factional war in Chile.

Somebody wants to know how to pronounce "bacarat." The Prince of Wales is inclined to pronounce it a pretty risky game. But perhaps he has heard something in the last few days that makes him prejudiced.

Senator Nash is all right when he says American people want cheap tin plate. But the senator has given no reason why we shouldn't have American tin plate cheaper and better than any that can be had from Wales.

It is anticipated that England will invest \$150,000,000 in American wheat this year, and the other European countries will furnish heavy buyers. The outlook from this side is cheerful.

Senator Peffer says "My sympathies were with the democrats." The senator should give us something new.

Low Rates via C. & N. W. R.R.
 On July 3 and 4 the Chicago & Northwestern Railway Co. will sell round trip tickets between all stations on its lines at very low rates; tickets good for return passage until and including July 6. For tickets and further information apply to agents C. & N. W. Railway.

BADGER PERSONALS.

EX-SPEAKER HOGAN wants to be governor.

DR. CHARLES A. EASTMAN, the Sioux Indian who married Elaine Goodall, studied at Beloit college.

DR. KITTO of Racine says he can beat Dr. Chloride-of-Gold Keely at curing drunkenness.

THOMAS J. BROOKS of Boscobel, a criminal attorney who has handled numerous cases before Janesville courts, died suddenly in Norwich, N. Y.

THE TIN PLATE INDUSTRY.

Free-Traders Getting Deeper and Deeper in the Mire.

The Free-trade papers continue their efforts to persuade themselves and their readers that the manufacture of tin plates will not be established here under the new tariff. At first they confidently asserted that no one ever thought of investing a dollar in the industry in this country. Forced to recede from this position, they still kept up their absurd policy of denying the existence of definitely located plants. As these began to multiply and American tin plates began to appear they again shifted their ground and turned to ridiculing the new American product. They said at first that tin plates would not be made at all. Actually confronted with the shining sheets, they challenged the manufacturer to produce 100 boxes a day, a physical impossibility, so soon after the enactment of the new tariff. But in the time the hundred boxes appeared, and, behold! your Free-trader dared the manufacturer to turn out 1,000 boxes a day. This is the point at which he has now arrived.

The progress of the new industry will soon drive him from this position also. It takes time to establish great tin plate plants, and the new law has been insured to our manufacturers only seven months. The increase of tin plates does not go into effect till next July. Protectionists can well afford to wait. The "tin plate liars" will suffer the fate of the McKinley prices liars, all in due time.

LAUGHING HIMSELF AWAY.

What Seemed Good Luck Has Cost Him 65 Pounds, and May Cost Him His Life.

Joe Durlinger, of Wrightstown, Bucks county, is laughing himself to death over the Newhope extension of the Reading railroad, which runs by his farm. Three months ago he weighed 175 pounds. The first train passed his farm the first of March. Durlinger has laughed so much since that he now weighs 110 pounds. The doctors are puzzled, and Durlinger's friends are awaiting the result with mingled feelings of alarm and curiosity. Durlinger is about fifty-eight years of age. He is a native of Germany.

On the first of March, 1890, the Newhope extension of the Reading railroad commenced. This ran directly past Durlinger's farm, with a station at Walton, about half a mile away. His farm increased in value at once, and Durlinger began to grin. All of his talk was of the improved value which the extension would give his land, and how his posterity would benefit thereby.

Then he began to neglect his own work and took to watching the railroad men at theirs. He was so tickled that he took several of the railroad men to board at almost nothing per week, and did nothing but laugh and talk about the improvement with them all day. By degrees his mirth became more hilarious. When the extension was finished and the first train ran by Durlinger's farm, he suddenly became convulsed with laughter. From that time he did nothing but sit on his porch and wait for the trains to go by. His keen ears detected the music of the whistle at a distance, and this was so distressing to him that he would burst into uncontrollable laughter.

After a train has passed he inspects the track, and laughing quietly to himself, returns to his house chuckling, to await the coming of the next. He knows the timetable by heart, and can tell to a minute when a train should be due off his farm. He allowed everything to go to pieces on the farm, and the watching for and laughing at the trains became his one absorbing passion.

He began to lose flesh, and is gradually becoming a skeleton. His wife hopes that the novelty of the thing may wear off, and that her husband will regain his normal state. He does not laugh now quite so much as he did, but his interest in and care of the road remains as great. Monday he walked eighteen miles to testify for the railroad company in case of trespass on the track.—Philadelphia Record.

Pleasant for Eaters of Marmalade.

Marmalade is doubtless an excellent and nutritious accompaniment to bread and butter at breakfast. It is reported to be largely consumed—under the name of "squish"—by Oxford undergraduates when in training for races. But the pleasing theory on which its patrons have hitherto gone has been that none but the very soundest oranges were used in its manufacture. Probably this is the case with the best makers of the conserve, but a rather lurid light has been thrown on the subject by a case heard at the Woolwich police court.

An inspector stated that complaints were made to him as to the condition of some oranges exposed for sale at the local market. On examining three boxes they were found to contain a "black pulpy substance," which was "quite unfit to eat." The owner of the fruit made the horrifying suggestion that it "could be chopped up for marmalade," and the hearing of the case he defended himself on the ground that the oranges were merely "frosted."

Another witness mentioned the disgusting fact that while the "pulpy" oranges cost twelve shillings a box, those sold for marmalade only fetched four shillings.

The defendant was let off with a warning, as there was no proof that he knew the oranges to be as bad as they undoubtedly were. For the whole the important point is to discover what proportion of their marmalade is made up of the "black pulpy substance" aforesaid.—London Telegraph.

Hints to Illustrators.

Get in the habit of carrying a small sketch book, and of picking up characteristic jottings in the street, on the ferry, in the horse car or in the audience at the theater. Notice how men wear their hats, at what angles they are tipped and how much of the head or face is visible below the brim. There is a good deal that is expressive and characteristic about a hat if the artist can only catch it.

Notice how different sorts of people dispose of their hands and feet. Watch the wrinkles in a man's coat when its wearer walks, and make quick memoranda of them. When he is leaning forward see where the line of the shoulder and arm will come and how much of his neck is visible above this line. Get the pose of his head when it is thrown back, when he is asleep, reading the paper or fumbling in his pocket for car fare. If his arm is forward or back, note where the wrinkles in his coat front, back or sleeve will be.

Society men, laboring men, business men and tramps will all have different and characteristic attitudes, ways of disposing of their hands and feet and wearing their clothes. The more you make careful study of these things and are able to express them, the more original an artist you will become. Make studies of the hang of a lady's drapery, the set of her bonnet or hat, the lines of her hair, the way in which she carries her muff, parcels, bag or umbrella. Notice how she gets on or off a car, crosses a gutter or rings a doorbell.—Art Amateur.

New chiffon trimmings at Archie Reid's.

SOME PROTECTION GEMS.

Senator Aldrich—For the purpose of ascertaining with the greatest degree of accuracy the relative effects of a revenue tariff and of duties levied under the Protective system upon our foreign commerce, I have taken for the basis of comparison two periods of equal length, the first the fifteen years from 1847 to 1861, inclusive, and the second from 1876 to 1890, inclusive. The first period, with the revenue tariff of 1840 and 1857 in force, includes in the view of all revenue "reformers" and Free-traders the most prosperous days of the republic. No Free-trade argument is complete that does not attempt by a series of ingenious percentages to show that during this period the progress and prosperity of the United States was greater than at any other time in its history. It certainly more fairly represents the effects of low tariff legislation than any other time that could be selected. The latter period, from 1876 to 1890, may be said to represent as fairly the effects of a Protective tariff.

The entire foreign commerce of the United States for the first period aggregated \$6,795,000,000 in value, and for the latter period \$20,334,000,000, or an annual average for the revenue tariff period of \$459,000,000 and for the protective period of \$1,356,000,000. It cannot be said that this enormous increase was the natural result of the growth of the country and its increase in population, as the average annual value per capita for the first period was \$17.08, and in the latter period \$35.20, establishing the fact that under the influence of a Protective system our foreign commerce increased 47 per cent. more rapidly than the population of the country. In view of the statements that were made in regard to the prohibitive character of the tariff bill of 1890, it may be well to state in this connection that the value of our imports and exports of foreign merchandise for the five months ending Feb. 28, 1891, was \$769,000,000, as compared with a value of \$744,000,000 for the corresponding period of last year under the tariff act of 1883.

The comparison is more striking if it is made as it should be—between dutiable imports and exports. In the Free-trade period the excess of dutiable imports over exports was \$59,000,000. In the Protective period the excess of exports over dutiable imports was \$1,574,000,000. The annual per capita of dutiable imports was \$7.88 in the first period and \$7.90 in the last, while the annual per capita of exports was \$7.73 in the first period and \$13.57 in the last. It will thus appear that for every dollar of dutiable imports in the years 1847 to 1861 we exported ninety-eight cents in value of domestic products, and that in the years 1876 to 1890, for every dollar of imports we exported \$1.71 of domestic products. In other words, our exports were 2 per cent. less than our imports under a revenue tariff, and our exports were 70 per cent. greater than our imports under a Protective system. We find, then, not only that the aggregate of our foreign commerce has increased more rapidly under the Protective system, but that when the time of exports alone is considered the relative rate of advance is much greater, and I may say, much greater than that attained by any other commercial nation.

Major McKinley—We will have tariffs so long as we have a government, and the only difference among the people is as to whether the tariff shall be protective in its nature or whether it shall be levied having in view the single purpose of raising the requisite revenue for governmental purposes. All of us agree—whether we are Democrats or whether we are Republicans—that the tariff is the wisest and best mode by which to raise the great bulk of the revenue required to conduct our government, only differing as to the principle upon which the tariff shall be levied, whether on the English system for the purpose of revenue only, or for the additional purpose of giving encouragement to our own industries and our own enterprises and employment to our own labor. And, as we have to resort to tariffs, as we must tax foreign products—whether we be Democrats or whether we be Republicans—to keep the wheels of government in operation, the party to which I belong declares that those tariffs shall be so levied upon foreign, competing products as to stimulate American genius, American development, and give remuneration to American labor and a home market to the American farmer! Why resort to a revenue rather than a protective tariff?

A revenue tariff such as is advocated by our political opponents is always paid by the consumer. There is no exception anywhere. A tariff levied for revenue, and revenue only, is always borne by the consuming nation importing from abroad. It is so in England, and it is so wherever revenue tariffs are enforced. That may be so primarily with a Protective tariff, but it ceases to be so the very moment we are capable of successfully manufacturing among ourselves, and then competition at home regulates and controls the prices to the advantage of the consumer. No man can controvert that; but mugwump, Free-trader or Democrat, whatever your name, the tariff you advocate is always paid by the consumer, and human history and our own experience have taught us that in the vast majority of cases Protective tariffs are never paid by the American consumer.

Young People's Society of Christian Endeavor.
 For the annual convention of the Young People's Society of Christian Endeavor, which will be held at Minneapolis, Minnesota, July 9 to 12, the Chicago & Northwestern Railway Co. will sell excursion tickets to Minneapolis and return at half rates—one fare for the round trip. For dates of sale, limits of tickets, etc., apply to agents C. & N. W. R.R.

Good Looks.

Good looks are more than skin deep, depending upon a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered you have a dyspeptic look, and if your kidneys be affected you have a pinched look. Secure good health and you will have good looks. Electric Bitters is the great alternative and tonic; acts directly on these vital organs. Cures pimples, blotches, boils, and gives a good complexion. Sold at W. T. Sherer & Co.'s drug store, 50 c per bottle.

Children Cry for Pitcher's Castoria.
 Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria.
 When she became a Child, she cried for Castoria.
 When she became a Woman, she clung to Castoria.
 When she had Children, she gave them Castoria.

Waiting.

Serene I fold my hands and wait,
 Nor care I for wind, nor tide, nor sea;
 I have no more 'twixt time or fate,
 For I! my own shall come to me.

I stay my taste, I make delays;
 For what avails this eager pace?
 I stand amid the eternal ways,
 And what is mine shall come to me.

Asleep, awake, by night or day,
 The friends I seek are seeking me;
 No wind can drive my bark astray,
 Nor change the tide of destiny.

What matter if I stand alone?
 I wait with joy the coming years;
 My heart shall reap where it has sown,
 And garner up its fruit of tears.

The waters know their own and draw
 The brook that springs in yonder heights;
 So flows the good with equal law
 Unto the soul of pure delights.

—John Burroughs.

A Woman's Answer to a Man's Question.
 Do you know you have asked for the costliest thing?
 Ever made by the Hand above—
 A woman's heart, and a woman's life,
 And a woman's wonderful love?

Do you know you have asked for this priceless thing?
 As a child might ask for a toy?
 Demanding what others have died to win
 With the reckless dash of a boy.

You have written my lesson of duty out,
 Maslilie you have questioned me;
 Now stand at the bar of my woman's soul
 Until I shall question thee.

You require your mutton shall always be hot,
 Your socks and your shirts shall be whole;
 I require your heart shall be true as God's stars,
 And pure as heaven your soul.

You require a cook for your mutton and beef;
 I require far grander a thing;
 A seamstress you're wanting for stockings
 And shirt—
 I seek for a man and a king.

A king for a beautiful realm called home,
 And a man that the maker, God,
 Shall look upon as he did the first,
 And say, "It is very good."

I am fair and young, but the rose will fade
 From my soft young cheek one day;
 Will you love me then, 'mid the falling leaves,
 As you did 'mid the bloom of May?

Is your heart an ocean so strong and deep
 From my soft young cheek one day;
 A loving woman finds heaven or hell
 On the day she is made a bride.

I require all things that are grand and true,
 All things that a man should be;
 My heart shall be true as my life
 To be all you demand of me.

If you cannot do this, a laundress and cook
 You can hire with little to pay;
 But a woman's heart and a woman's life
 Are not to be won that way.

—Mary T. Lathrop.

Worthiness.

Whatever lacks purpose is evil—a pool without pebbles breeds slugs.
 Not any one step half chance fashioned on the
 Infinite stairway of Time;
 Nor ever came good without labor, in Toil, or
 In Science or Art.

Why plow in the stubble with plowshares?
 Why winnow the chaff from the grain?
 Ah, child of us! if your must be toiled for,
 Since Truth is not born without Pain!

He giveth not to the unworthy, the weak or
 the foolish; he giveth only to the worthy.
 Who soweth but chaff at the seed time shall
 reap but a harvest of weeds.

As the pyramid builded of vapor is blown by
 his whirlwinds to naught,
 So the Song without Truth is forgotten: His
 poem to Man is man's thought.

Whatever is strong with a purpose, in humble-
 ness wrought and soul-pure,
 Is known to the Master of Singers—He touch-
 eth it saying, "Endure!"

—Charles J. O'Malley.

The Sin of Omission.

It isn't the thing you do, dear,
 It's the thing you've left undone,
 Which gives you a bit of heartache
 At the setting of the sun.

The tender word forgotten,
 The letter you did not write,
 The flower you might have sent, dear,
 Are your haunting ghosts to-night.

The stone you might have lifted
 Out of a brother's way,
 The bit of heartsome counsel
 You were hurried too much to say;

The loving touch of the hand, dear,
 The gentle and winsome tone,
 That you had no time nor thought for,
 With troubles clutch of your own.

The little acts of kindness,
 So easily out of mind;
 Which chances to be angels
 Which every mortal finds—
 They come in night and silence—
 Each child, reproachful wrath—
 When hope is faint and flagging,
 And a blight has dropped on faith.

For life is all too short, dear,
 And sorrow is all too great,
 To suffer our slow compassion,
 That tarries until too late.

And it's not the thing you do, dear,
 It's the thing you leave undone,
 Which gives you the bit of heartache
 At the setting of the sun.

—Margaret E. Sangster.

"Dinner for Two—Appetite for One."
 Said a dyspeptic to the waiter,
 ordering for self and friend. And suppose
 he had had an appetite, it would have
 agonized him, subsequently to gratify
 it. O! the abominable pang that even
 a little meal causes the confirmed
 victim of indigestion. Purgatory on
 earth—no less. Altogether unnece-
 sary, though. Begin at once, system-
 atically, a course of Hostetter's Stomach
 Bitters, ye unfortunates with refrac-
 tory stomachs. In saying this we
 merely refer you to the recorded experi-
 ence of thousands who have used the great
 stomachic to their lasting benefit. For
 the inaction of sluggish liver, and for
 tardy or irregular action of the bowels
 both very apt to accompany dyspepsia
 this fine regulator is equally efficient.
 Malarial complaints, kidney trouble
 rheumatism and neuralgia depart
 when a resort is had to the Bitters.

Pronounced Hopeless. Yet Saved.
 From a letter written by Mrs. Ada
 E. Hurd, of Groton, S. D., we quote:
 "Was taken with a bad cold, which
 settled on my lungs, cough set in and
 finally terminated in consumption.
 Four doctors gave me up, saying I
 could live but a short time. I gave
 myself up to my sorrow, determined
 I could not stay with my friends on
 earth, I would meet my absent ones
 above. My husband was advised to
 get Dr. King's New Discovery for con-
 sumption, coughs and colds. I gave
 it a trial, took in all eight bottles; it
 has cured me, and thank God I am
 now a well and hearty woman. Trial
 bottles free at W. T. Sherer & Co.'s
 drugstore; regular size 50c and \$1.00.

A WARRIOR WEDS.

Maj. Gen. Schofield Is Captured by Cupid.

HIS MARRIAGE TO MISS KILBOURNE.

The Interesting Ceremony Takes Place at Keokuk, Ia., in the Presence of Only Intimate Relatives and Friends.

A SOLDIER'S BRIDE.

KEOKUK, Ia., June 19.—The marriage of Miss Georgie Kilbourne, daughter of Mrs. George Kilbourne, of this city, and Maj. Gen. John M. Schofield, of the United States, took place at noon on Thursday in St. John's Episcopal church. All of Keokuk's exclusive society was present to witness the ceremony. A few friends of the family from Chicago and elsewhere also attended, but in the main the audience was made up of residents of Keokuk. At 11:30 o'clock the doors of St. John's Episcopal church were thrown open and soon the pretty granite edifice was filled in every part by the large number of guests who had been invited to witness the ceremony. The following gentlemen acted as ushers: Wells Kilbourne, of Cleveland, brother of the bride; David Buell, of Keokuk, cousin of the bride; Howard Elliott, of St. Louis, C. H. Pyffe and William Pyffe, of Chicago, and J. H. Sturgis, of Boston. About the same time the church was opened Gen. Schofield and his party left the Hotel Keokuk and were driven in carriages to the Kilbourne residence, where they were met by the bride and her party; then proceeding directly to the church.

On the entrance of the bride party the church doors were closed and, preceded by the ushers, the party marched down the center aisle in the following order: The ushers, Lieut. A. D. Anderson, of the United States army, Rev. R. C. McIlwain, rector of the church, performed the ceremony and Bishop Perry, of the Episcopal diocese of Iowa, pronounced the final benediction.

After the ceremony the entire party were driven to the Kilbourne residence, where between the hours of 12:30 and 2:30 the wedding reception was given to the friends of the family, verbally invited. No invitations were issued to parties residing out of the city. The house was filled with a profusion of the choicest cut flowers and potted plants. General and Mrs. Schofield received the congratulations of friends who thronged the spacious house. Refreshments were served by Weber, of Chicago. General and Mrs. Schofield left in the evening on a special train for Burlington, where the general's special car will be attached to the fast train for the west. They will go direct to San Francisco, and from there up the Pacific coast, probably to Puget sound, and will be gone for some weeks. In all probability General Schofield and wife will make a short stay in Keokuk after their return from the west and before proceeding to Washington, where they will make their home at Gen. Schofield's residence, 1224 Connecticut avenue.

No announcement was made of the presents received by the bride, but it was stated on good authority that of the groom to the bride was gift-ed security of a considerable amount. The gifts of the family of the bride were said to be of money. Other presents received were of a costly character and they were many and beautiful.

Telegrams of congratulation have been pouring in upon Gen. and Mrs. Schofield all day. None, however, were sent to the press, but it is said that messages were received from the president and cabinet officers, distinguished military men, and from many prominent in the civil affairs of the country.

[Gen. Schofield was born in Chautauque county, N. Y., September 29, 1831. After leaving West Point he was assigned to the Second artillery, and for five years acted as instructor in natural philosophy at West Point. Next he went to St. Louis on a leave of absence from the army and filled the chair of natural philosophy in Washington university of that city in May, 1861, he was appointed captain and was almost immediately promoted to be major of the First Missouri infantry. He subsequently became chief of staff to Gen. Lyon in November, 1861, he had been promoted to be brigadier general, and was assigned to the command of the Missouri militia, and in April, 1862, he was promoted to be major general of Missouri. In the fall of 1862 he was given command of the frontier, including the Kansas as well as the Missouri troops. He attended the schools in this city, but his education was completed at Mrs. Reed's celebrated school for young ladies in New York and abroad, where she pursued her studies for some time. Mrs. Kilbourne is very pretty and attractive. She has a petite figure, fair complexion and light brown hair. In manner she is animated and bright. She first met Gen. Schofield when she was 14 years of age, and by reason of her warm personal friendship for Mary Schofield she was frequently a visitor at the general's home. When Miss Schofield was married some years ago to Lieut. Andrews Miss Kilbourne was her maid of honor.]

MEXICO'S FLOOD.

Later Details of the Recent Disaster Near Ocotero.

ST. LOUIS, June 19.—Additional particulars of the terrible catastrophe which occurred on Sunday last near the mining city of Ocotero, in the state of San Luis Potosi, Mexico, are to the effect that the cloud burst on Concepcion mountain, and a great stream poured down the mountain sides, sweeping everything in its course. The habitations occupied by the miners were swept away and the tunnel of Guadalupe mine filled with water, drowning several miners who were working inside. A number of people living in cliff dwellings were buried alive. At Lacruces and El Petero, on one side of the mountain, and La Catorce on the other, fifteen dead bodies have been recovered and there are believed to be many more. The mining company's losses are heavy. Large quantities of high grade metal were carried away by the flood at the Concepcion property. Hundreds of pack-animals were drowned and roads desolated. These are the only details so far received from this remote district, though people here knowing the locality believe that there must have been at least fifty lives lost.

TERRIFIC STORM IN ILLINOIS.

OTTAWA, Ill., June 19.—The little village of Utica, eight miles west of city, came within a hail's breadth of being wiped out of existence Thursday. Shortly before noon two heavy black clouds met almost over the center of the village. There was a rush which was followed a few moments later by a terrific cloudburst. Torrents of water came rushing down over the north bluff, the gutters filled with water, and the water ran half an hour the principal streets of the town were flooded to a depth of 2 1/2 feet. During all the time the rain fell in sheets. Business men and people living on the ground floors moved their stocks, household furniture, etc., to the second story of their stores and dwellings. The Rock Island road runs through the village at the north, and twenty minutes after the storm burst the tracks were all washed away. The torrent of water that rushed over the north bluff carried with it thousands of tons of sand, and at 1 o'clock there were fully 4 feet of sand on the tracks.

The confusion and anguish of the fleeing, panic-stricken villagers was terrible in the extreme. Many of them believed their last day had come. Mothers hugged their children to their breasts and prayed for deliverance. Others, not entirely paralyzed with fear, devoted themselves to saving their property from ruin. Merchants removed their goods to upper floors. Small boats were pressed into service and persons imprisoned by the water were removed to places of safety. Within a few minutes of the cloudburst the water was fully 6 feet deep in the streets. It began receding at 3 o'clock, when the great damage to property could be discerned. Sidewalks, fences and bridges were washed away, dwellings and places of business were partially ruined, and household goods on the lower floors were rendered worthless. In the manufacturing portion of the place the damage was great. The fires in the kilns of the Utica fire-brick works were put out and the contents ruined and the kilns badly damaged. The cement company also met with a heavy loss. The Rock Island's new double track from Rock Island bridge over the Pugin Soggin creek was washed away, and four cars on a siding at the new cement works were carried down the stream. The cement works broke in several places, which increased the volume of water, and lock No. 13, just west of Utica, was torn out.

Large gangs of men are at work removing the great beds of sand which are attached to the tracks from the Utica pits, while others are replacing the broken bridge. The loss is hard to approximate, but \$150,000 is a conservative figure.

PEORIA, Ill., June 19.—The storm of a few days ago, which did such extensive damage in East Peoria, was nothing compared with the one of Thursday night. This was a terror which will never be forgotten by people living between here and Farmland. The early part of the night was full of electricity, which played fantastic freaks up to about 11:30 o'clock, when the rain began. It did not seem to be rain but a succession of cloudbursts accompanied by the most fearful thunder and sharpest lightning. At Hilton, just across the river, in a few minutes the first stories of the buildings were full of water and the people were compelled to flee to the heights, where many of them passed the night, some escaping only in their night clothes. There was not time in some instances to release horses from stables and many were drowned. Numbers of cattle and hogs shared a similar fate. Five bridges were carried away in the immediate vicinity of Hilton.

At midnight the depot of the Lake Erie & Western railroad near Hilton was filled with people who had fled to avoid drowning. The Toledo, Peoria & Western train which left here eastward-bound at 11:10 p. m. struggled along to reach Eureka, which it finally succeeded in accomplishing. The Lake Erie & Western, the Toledo, Peoria & Western and the Peoria & Pekin came had extensive washouts. Peoria was practically cut off from the world until Thursday afternoon, when temporary arrangements were made by which trains could be run.

The scene along the track of the Toledo, Peoria & Western is one of desolation. The water this evening stood 7 feet deep in the corn and wheat fields and last night it is said it was 16 feet deep. Buildings and barns are ruined. The bodies of domestic animals can be seen in all directions. The water flows on at Peoria, 7 miles east, rose to a depth of 3 feet, and the people narrowly escaped drowning. Herds of cattle, horses, hogs and chickens were swept away, and the crops of farmers over a large tract of land in the valley were utterly ruined. The only fatality reported was in the Coppars creek bridge, just across the line in Fulton county. A family named Gray had a cabin in the valley, and when the flood left the banks of Coppars creek and rushed down the valley the inmates grew alarmed. The father took his three boys and started to the hills, while the mother refused to leave the house. When half way across the valley floating log struck Gray and stunned him. The rushing water drowned the boys (aged 18, 8 and 5) and he narrowly escaped by clinging to the log. His wife got on the roof of the house and was rescued during the afternoon. The damage to bridges, railroad tracks and crops will reach thousands of dollars.

Bloomington, Ill., June 19.—Three bridges of the Lake Erie & Western road between Crandal and Farmland.

west of this city, were destroyed Wednesday night by a cloudburst which flooded Farm creek valley. Five other bridges were crippled. Several trains had narrow escapes and all were delayed. The storm was local and confined to a small area.

FATAL FLOODS IN NEBRASKA.

NELIGH, Neb., June 19.—Wednesday the heaviest rainfall ever experienced within twenty-eight miles in Nebraska fell here. Over 5 1/2 inches fell within three hours. Drains and ravines became torrents and brooks became rivers. About 5 o'clock J. Lorenson, a farmer of Neligh, left for home in company with his neighbor, Peterson. While crossing a flooded ravine the box was washed from the wagon and Lorenson was drowned. Peterson returned to town for assistance and a search body accompanied Sheriff Haverland to the scene and found Lorenson's body lodged against a wire fence one-half mile below.

CHILDREN, June 19.—Three children living in Emerick township, about 15 miles southeast of here, were drowned Wednesday night during the storm while trying to reach the house from school. A ravine which the children were accustomed to cross subside, and with the flood, washing them away.

OMAHA, June 19.—The damage to crops by the recent storm is not so great as at first reported, but in many counties throughout Nebraska the loss is great. In many places the water has flooded many acres. Before it will subside the wheat will be ruined. In some instances the rain was accompanied by a heavy fall of hail which beat the grain into the mud. Corn was much damaged, and altogether the farmers are heavy losers in Nebraska and South Dakota.

A Train Runs Into a Buggy.

DAYTON, O., June 19.—The Pennsylvania fast express train just outside Xenia Thursday ran down a buggy in which were George Thompson and Lota Bell, a young couple. The buggy was instantly killed, the buggy smashed and the young couple dashed to the ground. Thompson was killed and the young lady fatally injured.

THE MARKETS.

Grains, Provisions, Etc.

CHICAGO, June 18.

Wheat—Quiet and steady. Spring wheat patents, \$2.25; 575; winter, \$2.15; 575; winter wheat flour, \$3.10; 575; patents, \$4.00; 575; for straight.

EXERCISES AT THE MYERS HOUSE.

The Theatre Crowded and Hosts Turned Away Unable to Secure Seats—Flowers, Plants and Vines Laid Ready to the Scene on the Stage.

One dozen young ladies and a quartette of young gentlemen, graduates of the Janesville High school, class of '91, were the center of attraction on the opera house stage this afternoon. For days they have been looking forward to the coming of June 19, when they could form a galaxy on the opera house stage that would cause an approving smile to flash over even the face of Minerva. The young ladies have spent much time in preparing for the occasion, and while the young men have not made so much of an outward demonstration in approaching the last step in their public school life, they have been equally anxious and fully as nervous over its slow coming.

Were a Handsome Group.

The young ladies and gentlemen forming the class of '91 made a very handsome picture on the opera house stage this afternoon. Even the stage was made to feel the importance of the occasion. Flowers and foliage plants were arranged at either side in front, and a five-foot bank sloped down from each side. At the center they met in a bed of cut flowers.

Beneath the proscenium arch was stretched the class motto, worked in white flowers.

"Honor in Honest Labor Jaecit," it said.

No one had the hardihood to doubt it, but the throngs who worked like day laborers to make nine hundred seats do for two thousand people, seemed just a trifling sacrifice.

The Order of Exercises.

The exercises were opened promptly at 2 o'clock with an invocation by Rev. Dr. E. L. Eaton, followed by a piano solo. The first singer of the Inno was Miss Jennie Metta Peterson, an oration "Circumstances," Alfred McCulloch an oration "Crises," Ida Estelle Hatherell "Unsuccessful Heroes," Catherine Dolores Cantillon, oration, "Tis Folly to Attempt to Please Everybody," Olive Belle Loucks, an essay, "Beyond the Alps Lies Italy," Thomas Thurston Blakely led off on the second part of the programme with an oration, "What Next," followed by Maude Margaretta Goddes with an oration—"Silent Forces," Jennie Frances Cook, oration—"Against the Tide," Eloise Palmer, essay—"The Inspiration of an Aim," Roscoe Albert Whiffin, oration—"The Dangers of Illiteracy," Mary Louise Fenton, oration—"The Slaughter of the Innocent," and Phoebe Anne Lamphier, oration—"Permanent Structures Rise Slowly." Marion Estelle Spencer closed the class exercises by reading the "Class Prophecy."

Then came the presentation of the class, the awarding of diplomas and the Janesville school life of sixteen young people was at an end.

Have a Unique Class Pin.

The graduates have adopted rather peculiar class pins, peculiar in that it is made of plain polished gold, and consists of the simple figures, "91." The members of the class make it read many ways.

"See what a handsome class pin we have adopted," ejaculated one of the young lady members of the class as she was adjusting her class colors and step out on the opera house stage and face the audience.

The figures "91," standing for the class of 1891, but now look at it? Turned around it is "16," that stands for the number in the class. Now once more, turn the pin over and you have "19," that stands for June 19, the date of commencement. I doubt if you can find another such a combination."

Toe pin is small, yet it is very handsome and becoming as a holder of the class colors.

H. E. MERRILL HEATS BOTH HOUSES.

The Rutland Company Withdraws Its Bid On the School Building.

George K. Colling has been appointed by the school board to superintend the building of the two new buildings at a salary of \$250, and H. E. Merrill & Co. have been awarded the contract for putting up the new buildings at both buildings.

The board last evening voted to name the Pleasant street school building the "Grant School." The resignation of Miss Maud Crane as a teacher was accepted and the board elected Miss Anna McGinley a regular teacher on three months trial, and adopted a rule that hereafter all teachers appointed should be subject to the same rule.

New rules were adopted relating to employment of janitors, their pay being fixed on a basis of twelve months, they to have charge and care for the school buildings the whole year school or no school. No janitors were elected.

BELOIT GUARDS WILL BE HERE.

A Rockford Company May Also Help Janesville to Celebrate.

The Fourth of July committees held an enthusiastic meeting last evening in the Business Men's rooms. A general plan was adopted, embracing every feature of a first class celebration. The committee will be here on that day and take part in the parade, and Captain Glass is corresponding to secure one of Rockford's militia companies. Several bands of music will be engaged, and there will be plenty of music for all. The sub-committees were instructed to go to work at once, and complete all details for a rousing time.

Northwestern Saengerfest in Milwaukee?

Special train service on the Chicago, Milwaukee & St. Paul Railway.

The great Northwestern Saengerfest to be held in Milwaukee, July 8 to 12, the Chicago, Milwaukee & St. Paul Railway Company will sell excursion tickets at a fare one way for the round trip, July 7 to 12 inclusive. Good to return on any train or day from July 7 to 13. In addition to the regular

Half Rates to Milwaukee.

For the Northwestern Saengerfest, which will be held at Milwaukee, Wisconsin, July 8 to 12, the Chicago & Northwestern Railway Co. will sell excursion tickets to Milwaukee and return at half rates—one fare for the round trip. For rates, dates of sale, limits of tickets, etc., apply to agents C. & N. W. Ry.

Meeting of National Educational Association.

at Toronto, July 14 to 17, 1891.

For the above occasion the Chicago & Northwestern Railway Company will from July 8 to 13, inclusive, sell excursion tickets to Toronto and return at the very low rate of one fare for the round trip, with 2.00 added for membership in the association. For tickets and further information apply to agents Chicago & Northwestern railway.

Weekly Excursions to the Delta.

The Chicago, Milwaukee & St. Paul railroad company will sell round trip excursion tickets at a fare and a third on Fridays and Saturdays, from May 28 until September 30. These tickets will hold good to return until July 13 following date of sale.

The Woodruff Horse Victor After a Plucky Fight.

White Foot a Winner in the 2:34 Trotting Race Although All the Horses in the Track Were After Him—Notes From the Big Oval.

Lead colored clouds and plenty of them obscured the sun today and made the climate at the driving park anything but pleasant. The track was a trifle heavy, but the races were good. The judges wore mackintoshes and most of the men had their overcoats on. The ladies were wrapped in heavy cloaks and the young men who had made their lungs sore trying to induce the people to purchase palm leaf fans on the days sun shone, gave up and cursed the weather clerk.

"Lemo" Not in Demand.

The boys who sold "Lemo" and "all the ice water you can drink for a nickel," also became discouraged, turned up their coat collars and looked as if, now that their occupation was gone, they had lost the last friend they had on earth.

It was disagreeable, but the people must see horse races even if they catch the pneumonia; so they sat and watched and waited while their teeth chattered, and they pictured in their minds such luxuries as red hot coal stoves and steam radiators.

Horse Blankets a Luxury.

The "swipes" kept warm by wrapping blankets about their Apollo like forms. The horses also kept warm, but the spectators all shivered.

The Races of Yesterday were the best of the meeting.

White Foot after fighting a red hot battle, won the 2:34 trotting race and enriched his owner by \$250. Scotsman pushed him closer than any other horse, but the Alcyone horse was too much for the Milo, and won the race. Placed in a pocket at the first turn White Foot was held in the rear until the back stretch was reached, when he pulled out and went around the whole bunch.

The good judges looked as if they had all stoned to death by their salutes, so easily did the Alcyone horse get around them.

Hard Fight Between Pacers.

The 2:35 pacing race was an exciting race from the first. When Alessandro, H. S. Woodruff's grey pacer, finished first the multitude yelled themselves hoarse, and Kelly got an ovation.

Then Jack Jewett took a heat, and Jewett stock went up a peg. He had only six inches to spare though, because Kelly and Alessandro were so close up with him that many thought it a dead heat.

The next heat was captured by Bessie. This race was unfinished when rain ended the contest, and it was postponed until today.

If there was a sensation when the Woodruff horse took the heat yesterday, there was a glimpse of pandemonium today. Two heats the plucky grey paced at a speed that left the other well in the rear. He fought his way at every step, but it was a winning fight, and a goodly slice of the money will go out to Buckleton farm tonight.

SUMMARY.

2:35 class pacing. Purse \$400.

Jack Jewett.....2 1 2 2 2

Alessandro.....4 1 1 1 1

Bessie.....4 1 1 1 1

Nelle Bird.....3 3 3 3 3

Two Strike.....5 5 3 3 4

Day Henry.....Dk

Time—2:28 1/2, 2:28 1/2, 2:28 1/2, 2:28 1/2.

The regular programme for this afternoon included two races beside the unfinished pacing class.

A Strong Field of Trotters.

In the 2:40 trotting class were eleven entered as follows:

Kitty C. Victoria McGregory, Bellflower, Climax, News Boy, Maad, Albert, S. Good, Bay, Kitt, Clyde, The Queen, Little Albert, Almost any of them were winners. Maad, News Boy, Kitty C and others were named as winners, and the air was full of uncertainty.

Temple Bar and Prince M.

The second race was the 2:26 trotting, with eleven entries. In this class were such horses as Ed. Graham, Clara Wilks, Massasoit, King Caesar, Nelly Allison, Teddie C. J. P., Minnie Whitstone, Temple Bar, Prince M., and Kate Agnew, any of whom could make a very fast mile.

When the Temple Bar race was to take place, the fact was that the most excited special interest for these two horses fought hard with each other in Elgin and in Rockford. Temple Bar was a favorite in the beginning his party playing him with a great deal of confidence on account of the fact that he had been trotting some good races in Tennessee, and was hard as nails and as fast as a bullet. Horsemen knew, however, that Prince M. was fast, and it was no secret that last fall he worked a mile with the pacer, Fred Arthur, in 2:20 1/2. Prince M. was bred in La Porte, Ind., and up to August of last year was used by his owner, a doctor, in his practice. Along in June a local trainer took the horse to the track north and then, and soon discovered that he was a fast horse. The result of it all was that Prince M., that up to June had never seen a track, took a record of 2:26 over a half mile track before the season was over, and had gone in 2:20 1/2 at Cleveland. This spring he has been a trifle unlucky, having stepped on a stone not long ago and bruised his foot. In spite of this he gave Temple Bar a hard chase, taking heads from the black stallion in Elgin and in Rockford.

Made a Co. ty Break.

When the bell rang, the only ones that passed the wire were Temple Bar, Prince M. and Teddie C. The first heat looked as if it belonged to the black, but when one hundred yards from the stand he went up into the air, and Prince M. finished first.

Summary.

2:26 Trotting. Purse \$500.

Teddie C.....3 3

Prince M.....1 1

Temple Bar.....2 2

Time—2:28 1/2, 2:28 1/2.

Margaret S. of California owned by Salisbury was exhibited at 3:30 o'clock. She has a record of 2:12 1/2.
